

Godalming

The final GLP children's event of the year is one focussing on climate change, caring for the environment and sustainability as part of our 'Godalming Go Green' event!

Come up with an idea that your school can adopt and sustain, which will be good for the environment. Unlike the previous events, this one allows you to work in pairs or in teams.

Your ideas need to be sent to your Headteacher who will decide whose idea will be rolled out from September.

ALL 12 GLP schools will then roll out their projects thus being that little bit kinder to the local environment!

REMEMBER: Your idea MUST be one that which is sustained throughout the year

**Closing date for ideas is:
FRIDAY 28th MAY 2021**
